Introducing CICADA

Cicada, featured in these pages, is Alexander Lamont's 2024 Spring collection; a journey into material, tone and colour inspired by nature and the legacies of craft. The cicada symbolizes the creative spirit of Alexander Lamont where contemporary designs are brought to life through the transformative energy of human hand and eye. Iconic designs are reborn in fresh new colours and tone-on-tone finishes: warm neutrals and rich natural shades, soft celadons and blues, iridescent ambers, shimmering ebony and hewn brass enliven each exquisite handcrafted piece.

Understanding the Materials

Every Alexander Lamont design is handmade from beautiful natural materials: bronze, straw, shagreen, mica, calcite, parchment, indigo, marble, fine veneers, mother-of-pearl, beetle-wing, repoussé copper...

As such they are living materials and each piece will vary in tone and texture according to their nature. The colour and lines of stone and straw; the grain of parchment; the tone of bronze patina, will all be subtly different for each piece. The techniques we use allow the artisans to express their skills and this too adds a unique aspect to different pieces.

Acquiring an Alexander Lamont work is just the beginning. Nature, time and exceptional craftsmanship, if handled with care, enable each piece to slowly evolve and grow more beautiful, creating heirloom pieces that can be passed to the next generation. Care instructions can be obtained from our representatives.
